Insulated Shipper Reuse Program

Our insulated shippers consist of a foam cooler encased in a cardboard shell, stamped with the UMN VDL logo. The shippers are large enough to ship almost any diagnostic sample type (15x9x11) and can be used with or without ice packs. When you purchase an insulated shipper, we will automatically return the shipper to you for reuse. We recommend keeping several shippers in rotation so that you always have one on hand. The shippers are durable enough to withstand many months of reuse. As they wear over time, we will replace the outer cardboard shell and inner foam cooler as needed. When the shipper reaches an end-of-use stage, we will automatically send you a new insulated shipper as a replacement. The fees for replacing part or all of the insulated shipper will be billed to you by the end of the following month.

Blood Tube Boxes

We offer reusable cardboard blood tube boxes and mailers at no charge. The blood tube box holds 40-count standard sized 7ml blood tubes. The outer mailer is designed specifically to fit the blood tube boxes for room temperature shipment. Please use a different mailer if you wish to ship on ice packs.

SUPPLY	PRICE	QUANTITY
Insulated Shipper : New Box	\$13.00	<input type="text"/>
Insulated Shipper : New Foam Inside	\$7.35	NA
Insulated Shipper : New Outer Box	\$5.65	NA
